

## APPENDIX **A** Providing Driver Files

If prompted for the driver files, insert the driver CD.

Click **Browse**.

Select the CD-ROM drive.

Click **OK**.

Windows will copy the necessary files.

### 1 Installing the Drivers

*Note: Please do not connect the DWL-120 wireless USB adapter until advised to do so.*

With the computer turned **ON**, insert the driver CD for the DWL-120 Wireless USB adapter into the CD-ROM.

The driver CD will automatically load. Click on **“Install Drivers.”**

Windows will recognize the DWL-120 Wireless USB adapter.

This screen will appear for just a moment.

When the following “Welcome” screen is displayed,

Click **Next**.

# 1 Installing the Drivers *continued*

Windows will prompt for the destination folder.

**Click Next** to accept the selected folder.

*Otherwise, click “Browse,” and select an alternate folder.*

**Click Next**, on the following screen.

When the following screen is displayed,

**Click Next.**

*Windows will finish loading system files.*

# 2 Finishing Installation

Insert the DWL-120 Wireless USB adapter into an available USB port.

Windows will recognize the new hardware.

# 2

## Finishing Installation *continued*

The following screen will appear only during the initial installation.

**Click Yes** to continue.

At the next window,

**Click Finish.**

**Restart** the computer to complete the installation.

*To check that the adapter is working, click on the configuration utility icon in the task bar. Make sure that there is a wireless connection under the "status tab."*

## 2 Finishing Installation *continued*

The “Add New Hardware Wizard” screen will appear.

**Click Next.**

In the following dialog box, make sure that “Search for a suitable driver for my device” is selected.

**Click Next.**

On the next screen, make sure that the “CD-ROM drive” box is selected in the location box.

**Click Next.**

The driver files will be found on the CD, as shown in the following screen.

*Note: If Windows is unable to find the drivers, refer to Appendix A for browsing the CD-ROM drive.*

**Click Next.**
