

Notice Sheet

EPSON Status Monitor 3

For All Laser Printer Users

- ❑ The EPSON Status Monitor 3 utility is not available on a computer set up for multiple users when more than one user is logged on at a time.
- ❑ The EPSON Status Monitor 3 utility is not available when printing from a Remote Desktop connection.
- ❑ When using a shared printer, if the IPX/SPX compatible protocol setting is turned on in Windows Me/98/95, and EPSON Status Monitor 3 is installed, a communication error may occur.

For Host Based Printer Users

The Monitored Printers settings in the EPSON Status Monitor 3 utility are not available.

Windows® XP Users

For Host Based Printer Users

- ❑ On a network, printing is not possible from a client computer set up for multiple users when more than one user is logged on to a client at a time.
- ❑ Printing from a Remote Desktop connection is not possible.

EpsonNet WebManager

Windows XP does not support EpsonNet WebManager.
