Safety Instructions

The following illustrations represent precautions.

The lightning bolt is a warning sign alerting you to dangerous voltage inside the product. DO NOT OPEN THE DVD-VCR. Refer to service personnel.
Do NOT expose the DVD-VCR to extreme temperature conditions (below 5°C and above 40°C) or to extreme humidity conditions (less than 10% and more than 75%).
Do NOT expose the DVD-VCR to direct sunlight.
Do NOT expose the DVD-VCR to any liquids.
Do NOT place any objects on the DVD-VCR or remote control.
During a storm and/or lightning, unplug the DVD-VCR from the mains socket and aerial.
If the remote control is not used for a long period of time, remove the batteries and store it in a cool, dry place.

THIS DEVICE IS NOT FOR USE IN INDUSTRIAL ENVIRONMENTS

Disc Type and Characteristics

This DVD player is capable of playing the following types of discs with the corresponding logos :

Disc Types (Logos)	Recording Types	Disc Size	Max. Playing Time	Characteristics
DVD DVD VIDEO	Audio + Video	12 Cm	Single-sided 240 min. Double-sided 480 min.	• DVD contains excellent sound and video due to Dolby Digital and MPEG-2 system. • Various screen and audio functions can be easily selected through the on-screen menu.
		8 Cm	Single-sided 80 min. Double-sided 160 min.	
VIDEO-CD COMPACT disc DIGITAL VIDEO	Audio + Video	12 Cm	74 min.	• Video with CD sound, VHS quality & MPEG-1 compression technology.
		8 Cm	20 min.	
AUDIO-CD COMPACT disc DIGITAL AUDIO	Audio	12 Cm	74 min.	• An LP is recorded as an analog signal with more distortion. CD is recorded as a Digital Signal with better audio quality, less distortion and less deterioration of audio quality over time.
		8 Cm	20 min.	

* DO NOT play CD-ROM, CD-I and DVD-ROM in this player!
  (CDGs play audio only, not graphics.)

Disc Markings

🌐-🌐	PAL	NTSC	DOLBY DIGITAL	STEREO	DIGITAL SOUND	dts
• Playback Region Number	• PAL colour system in U.K, France, Germany, Austrailia etc.	• NTSC broadcast system in USA, Canada, japan, South Korea, etc.	• Dolby Digital disc	• Stereo disc	• Digital Audio disc	• DTS disc

• "DTS" and "DTS Digital Surround" are registered trademarks of Digital Theater Systems, Inc.
• Manufactured under license from Dolby Laboratories.
  "Dolby", "Pro Logic", and the double-D symbol are trademarks of Dolby Laboratories.

Playback Region Number

Both the DVD player and the discs are coded by region. These regional codes must match in order for the disc to play. If the codes do not match, the disc will not play.
The Region Number for this player is described on the rear panel of the player.

Accessories

You have just purchased a SAMSUNG Video Cassette Recorder (DVD-VCR).
Together with your DVD-VCR, you will find the following accessories in the box.

REMOTE CONTROL	AUDIO & VIDEO CABLE	OWNER'S INSTRUCTIONS	COAXIAL CABLE

BATTERIES	AM ANTENNA CABLE	FM ANTENNA CABLE
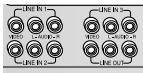

Deciding How to Connect DVD-VCR

You must take into account various factors when connecting audio or video systems:

◆ *Types of connectors available on your systems*

◆ *Systems connected permanently to the DVD-VCR (satellite receiver for example) or temporarily (camcorder for example)*

Your DVD-VCR is equipped with the following connectors.

Connector	Location	Type	Direction	Recommended Use
LINE	Rear	Audio/Video RCA	In/Out	◆ Television ◆ Other VCR
COMPONENT output	Rear	RCA	Out	◆ COMPONENT out (DVD only)
S-VIDEO output	Rear	S-JACK	Out	◆ S-Video out (DVD only)
OUT TO TV	Rear	75 Ω coaxial	Out	◆ Television
IN FROM ANT.	Rear	75 Ω coaxial	In	◆ Aerial ◆ Cable television network ◆ Satellite receiver

☛ Whenever you connect an audio or video system to your DVD-VCR, ensure that <u>all</u> elements are switched <u>off</u>.

Refer to the documentation supplied with your equipment for detailed connection instructions and associated safety precautions.

Connecting DVD-VCR to the TV using the Coaxial Cable

To receive television programmes a signal must be received from one of the following sources:

◆ *An outdoor aerial*

◆ *An indoor aerial*

◆ *A cable television network*

◆ *A satellite receiver*

☛ Make sure that both the television and the DVD-VCR are switched <u>off</u> before connecting the cables.

1   Remove the aerial or network input cable from the television.

2   Connect this cable to the 75Ω coaxial socket marked ⊓⌐ on the rear of your DVD-VCR.

3   Plug the coaxial cable supplied into the [TV] socket on your DVD-VCR.

4   Plug the other end of the coaxial cable into the connector previously used for the aerial on the television.

5   To obtain better quality pictures and sound on your television, you can also connect your DVD-VCR to the television via the RCA cable (see section below) if your television is equipped with this type of connection.
Connecting DVD-VCR to the TV using the RCA Cable
You can connect your DVD-VCR to the television using the RCA cable if the appropriate input is available on the television. You thus:

◆ *Obtain better quality sound and pictures*

◆ *Simplify the setting up procedure of your DVD-VCR*

☛ ◆ Regardless of the type of connection chosen, you must always connect the coaxial cable supplied. Otherwise, no picture will be visible on the screen when the DVD-VCR is switched off.

◆ Make sure that both the television and the DVD-VCR are switched <u>off</u> before connecting the cables.

1   Connect the coaxial cable as indicated in the above section.

2   Connect one end of the RCA Audio/Video cable to the Video output and Audio L, R output socket on the rear of the DVD-VCR.

3   Plug the other end into the appropriate connector on the television.

Connecting Other Equipment to Your DVD-VCR

You can connect other audio and/or video equipment to your DVD-VCR in different ways. The following illustrations give a few examples of the connection possibilities.

➤ The RCA input/output connectors on the rear of the DVD-VCR are used for equipment, such as camcorders, VCRs or sound systems.

Plug & Auto Set Up

Your DVD-VCR will automatically set itself up when it is plugged into the mains for the first time. TV stations will be stored in memory. The process takes a few minutes. Your DVD-VCR will then be ready for use.

1 Connect the coaxial cable as indicated on page 11. (Connecting Your DVD-VCR to the TV Using the Coaxial Cable)

2 Plug the DVD-VCR into the mains.
Result: The **LANGUAGE SET** menu is displayed.

3 Select the required language by pressing the ▲ or ▼ buttons.

4 Press ENTER to store the language selected.
Result: A message appears.

5 Press ENTER to start the auto scanning.
◆ The number of stations automatically stored by the DVD-VCR depends on the number of stations that it has found.

6 Check the data and time. (see page 17)

7 On completion, press RETURN to exit the menu.

➤ ◆ Auto preset can be performed by pressing (STOP) on the DVD-VCR continuously for 5 seconds or more with no tape inserted.

Tuning Your Television for the DVD-VCR
You must tune your television for the DVD-VCR only if you are not using a RCA cable

➣   To view pictures from your DVD-VCR when a RCA cable is used, the television must be set to the audio/video mode (AV).

1   Switch on the television.

2   Switch on the DVD-VCR by pressing STANDBY/ON on the front of the DVD-VCR or STANDBY/ON on the remote control.

3   Select a programme position on the television to be reserved for use with your DVD-VCR.

4   Insert the video cassette in the DVD-VCR. Check that the DVD-VCR starts reading the cassette; if not, press ▶❙❙ button.

5   Start a scan on your television or set the television to UHF channel 38 (Newzealand:UHF 36 CH).

6   Fine tune the television until the pictures and sound are obtained clearly.

7   If you cannot find the pictures and sound, or there is interference from nearby channels, it may be necessary to change the setting of the DVD-VCR output channel (see Setting the DVD-VCR Output Channel on page 23 and Problems and Solutions on page 75).

8   When the picture and sound are perfectly clear, store this channel at the desired programme position on the television.
　　　　Result: That programme is now reserved for use with your DVD-VCR.

Deck Control Keys

The DVD-VCR uses one set of controls to operate both decks. The following keys are helpful in successfully controlling each deck.

1   **STANDBY/ON Button**
Press the STANDBY/ON button on the remote control or front panel to turn on the DVD-VCR.

2   **DVD Button**
Press the DVD button on the remote control when you want to control the DVD deck.
◆ The DVD indicator will light on the Front Panel Display to show that the DVD deck is selected.

3   **VCR Button**
Press the VCR button on remote control when you want to control the VCR deck.
◆ The VCR indicator will light on the Front Panel Display to show that VHS deck is selected.

4   **INPUT Button**
Press the INPUT button repeatedly to cycle through all of your input sources, including the Tuner (PR##), Line 1, Line 2 and Line 3 (rear AV input).
Copying from DVD to VCR
The DVD-VCR allows you to copy the contents of a DVD to a VHS tape with a press of the COPY button.

⚠ *If the DVD you are attempting to copy is copy protected, you will not be able to copy the disc. It is not permitted to copy Macrovision® encoded DVDs.*

1   Insert Disc
Insert the disc you wish to copy in the DVD deck and close the drawer.

2   Insert VHS Tape
Insert a blank VHS videotape into the VCR deck.

3   Copy the DVD to VHS Tape
Press the COPY button on the DVD-VCR front panel.
◆ The DVD will go into Play mode and the VCR will go into Record mode.
◆ If the DVD disc menu appears, you may need to press the PLAY button manually to begin copying.

4   Stop the Copy Process
When the DVD is finished playing, press the VCR button on the remote control and then press the STOP button to end the copy.
◆ You must stop the Copy process manually when the DVD movie ends or the DVD may replay and record over and over again.

☞ The copy is only active PAL Disc system.

Inserting Batteries in the Remote Control

You must insert or replace the batteries in the remote control when you:

◆ *Purchase the DVD-VCR*

◆ *Find that the remote control is no longer working correctly*

**1   **Push the tab in the direction of the arrow to release the battery compartment cover on the rear of the remote control.

**2   **Insert two AA, R6 or equivalent batteries, taking care to respect the polarities:
◆ + on the battery with + on the remote control
◆ – on the battery with – on the remote control

**3   **Replace the cover by aligning it with the base of the remote control and pushing it back into place.

➢ Do not mix different battery types (manganese and alkaline for example).
Setting the Date and Time

Your DVD-VCR contains a 24-hour clock and calendar used to:
◆ *Automatically stop programme recording*
◆ *Preset your DVD-VCR to record a programme automatically*

You must set the date and time when:
◆ *You purchase the DVD-VCR*

☞ ◆ Do not forget to reset the time when you change clocks from winter to summer time and vice versa.

**1   **Press SETUP on the remote control.
Result: The MAIN MENU is displayed.

2   **Press the corresponding ▲, ▼ or ◀, ▶ buttons to select the **CLOCK SET option.

**3   **Press the ENTER button to select this option.
Result: The **CLOCK SET** menu is displayed.

**4   **Press ◀ or ▶ to select the hour, minutes, day, month and year.
Result: The option selected flashes.

**5   **Press the ▲ or ▼ buttons to increase or decrease the value.
Result: The day of the week is displayed automatically.

➢ You can hold the ▲ or ▼ buttons down to scroll more quickly through the values.

**6   **On completion, press RETURN twice to exit the menu.

Presetting the Stations Automatically

☞ You do not need to preset the stations if you have already set them automatically (see Plug & Auto Set Up on page 13).

Your DVD-VCR contains a built-in tuner used to receive television broadcasts.

You must preset the stations received through the tuner. This can be done:
 ◆ *Plug & Auto Set up (see page 13)*
 ◆ *Automatically*
 ◆ *Manually (see page 20)*

You can store up to 80 stations.

---

1 Press the SETUP button on the remote control.
Result: The MAIN MENU is displayed.

---

2 Press the corresponding ▲, ▼ or ◄, ► buttons to select the **INSTALLATION** option.

---

3 Press the ENTER button to select this option.
Result: The **INSTALLATION** menu is displayed.

---

4 Press the corresponding ▲ or ▼ buttons, until the **AUTO SET UP** option is selected.
And then press the ENTER button to select this option.
Result: A message appears, indicating that any channels already preset on your DVD-VCR will be deleted.

---

5 Press ENTER to start the auto scanning.
Result: ◆ The **PLEASE WAIT** indication flashes on the television screen.
 ◆ The first frequency band is scanned and the first station found is displayed and stored.
 ◆ The DVD-VCR then searches for the second station and so on.
 ◆ When the automatic scanning procedure has finished, the DVD-VCR switches automatically to programme 1.

➢ The number of stations automatically stored by the DVD-VCR depends on the number of stations that it has found.

---

6 If you wish to cancel the auto scanning before the end, press the RETURN button three times to exit the menu.

➢ ◆ Once the auto scanning procedure has finished, some stations may have been stored more than once; select the stations with the best reception and delete the ones no longer required (see page 21).

➢ ◆ When playing back a cassette, the standard is automatically selected by the DVD-VCR.
   ◆ When you playback an NTSC-recorded tape on this DVD-VCR make a setting on the colour system according to your TV. If your TV is a PAL system only TV, set NTPB. If your TV is Multi System TV (NTSC 4.43 compatible), set NT4.43 and you can record NT4.43.

1 Press SETUP on the remote control.
Result: The MAIN MENU is displayed.

2 Press the corresponding ▲, ▼ or ◀, ▶ buttons to select the **USER SET** option.

3 Press the ENTER button to select this option.
Result: The **USER SET** menu is displayed.

4 Press the corresponding ▲ or ▼ buttons, until the **COLOUR SYSTEM** option is selected.

5 Press the ▶ button to select **AUTO → PAL → MESECAM → B/W.**

| **AUTO** | When playing back a cassette, the system standard is automatically selected by the DVD-VCR. |
| **B/W** | Black and White |

6 On completion, press RETURN twice to exit the menu.

| VCR | **NICAM (Newzealand Model only)** |
NICAM programmes are divided into 3 types. NICAM Stereo, NICAM Mono and Bilingual (transmission in another language). NICAM programmes are always accompanied by a standard mono sound broadcast and you can select the desired sound. Please refer to page 36.

VCR | **Selecting the Recording Speed**

Type	Recording Time (in SP)
E-180	180 mins. or 3 hours
E-240	240 mins. or 4 hours
E-260	260 mins. or 4 hours and 20 mins.
E-300	300 mins. or 5 hours

You can record a cassette at two different speeds:

    ◆ *SP (Standard Play)*

    ◆ *LP (Long Play)*

In Long Play modes:

    ◆ *Each cassette lasts twice as long*

    ◆ *The recording is of a slightly lower quality*

To record a cassette...	Press the SPEED button on the remote control, until...
In standard play mode	**SP** is displayed.
In long play mode	**LP** is displayed.

Protecting a Recorded Cassette | **VCR**

Video cassettes have a safety tab to prevent accidental erasure. When this tab has been removed, you <u>cannot</u> record on the tape.

1   If you wish to protect a cassette, break off the tab using a small screwdriver.

2   To re-record over a protected cassette (safety tab broken), cover the hole with adhesive tape.
Recording a Programme Immediately | **VCR**

Before recording a programme, you must have preset the corresponding station (unless you are recording via an external video source). If you have not done so, refer to pages 19 and 20.

1   Switch on the television.

2   To monitor the programme being recorded, select the television channel reserved for use with your DVD-VCR (or the AV input if used).

3   Insert the cassette on which the programme is to be recorded, with the window visible and the safety tab intact or the opening covered with adhesive tape.
    Result: The DVD-VCR is switched on automatically.

4   Select:
    ◆ The station to be recorded using the PROG/TRK (▲ or ▼) buttons
    or
    ◆ The LINE source using the INPUT button for a satellite tuner or external video source
    Result: The station number is displayed and the programme can be seen on the television.

5   Select the recording speed by pressing the SPEED button as many times as required (see page 28).

6   Hold REC (●) down for a while to start recording.
    Result: The record indicator appears on the television and DVD-VCR display. An index is recorded on the tape (see page 38).

7   To stop recording, press ■ once.

➢   ◆ If your DVD-VCR ejects the cassette when you start recording, check to make sure that the cassette's safety tab is intact or that the opening (created by a broken safety tab) is covered with adhesive tape.
    ◆ If you reach the end of the tape while recording, the cassette rewinds automatically.
This function enables you to record up to nine hours (LP) of programmes.

Your DVD-VCR stops automatically after the requested length of time.
1   Switch on the television.

2   To monitor the programme being recorded, select the television channel reserved for use with your DVD-VCR (or the AV input if used).

3   Insert the cassette on which the programme is to be recorded, with the window visible and the safety tab intact or the opening covered with adhesive tape.
Result: The DVD-VCR is switched on automatically.

4   Select:
◆   The station to be recorded using the PROG/TRK (▲ or ▼) buttons
or
◆   The LINE source using the INPUT button for a satellite tuner or external video source
Result: The channel number is displayed and the programme can be seen on the television.

5   Select the recording speed by pressing the SPEED button as many times as required (see page 28).

6   Hold the REC button (●) down for a while to start recording.
Result: The record indicator appears on the television screen and DVD-VCR display. An index is recorded on the tape (see page 38).

7   Press the REC button (●) several times to increase the recording time in:
◆   30-minute intervals up to four hours
◆   1-hour intervals up to nine hours (LP)
Result: The length is displayed on the television displays. The selected programme is recorded for the length of time requested. At the end of that time, the DVD-VCR stops recording automatically.

8   If you wish to cancel the recording before the end, press STANDBY/ON.

☛   If the end of the tape is reached while recording:
◆   The recording stops

```
LENGTH 2:30

SET LENGTH :
         PRESS REC ●
```

Before presetting your DVD-VCR:
◆   *Switch on both the television and your DVD-VCR*
◆   *Check that the date and time are correct*
◆   *Insert the cassette on which the programme is to be recorded (safety tab intact)*

Up to six programmes can be preset.

1   Press the TIMER button.
Result: The **TIMER METHOD** is displayed.

2   Press the corresponding ▲ or ▼ buttons, until the **G-CODE** option is selected.

3   Press the ▶ button to select **G-CODE**.
Result: A message is displayed to allow you to enter the G-CODE code.

☛   If all six programmes have been set, the message **TIMER IS FULL** is displayed. Refer to page 33 if you wish to cancel a preset recording.

4   Press the numeric buttons to enter the code opposite the programme that you wish to record in your television magazine.

➣   If you wish to correct the G-CODE code that you are entering:
◆   Press the ◀ button until the digit to be corrected is cleared
◆   Enter the correct digit

5   Press the ENTER button.
Result: The information concerning the programme is displayed.

☛   When using the G-CODE function for the first time with stored stations, the programme number flashes. This one time, you must enter the station number manually by pressing the ▲ or ▼ buttons. Refer to the following page if:
◆   The programme number or times flash
◆   You wish to modify the programme

6   If the programme and times are correct, press the RETURN button.

7   Press the STANDBY/ON button to activate the timer.

8   Refer to page 34 if you wish to:
◆   Check that your VCR has been programmed correctly
◆   Cancel a preset recording

☛   The numbers next to each TV programme listing are G-CODE code numbers, which allow you to programme your videorecorder instantly with the remote control. Tap in the G-CODE code for the programme you wish to record.

™ G-CODE is a trademark of Gemstar Development Corporation. The G-CODE system is manufactured under licence from Gemstar Development Corporation.

```
If you wish to correct the programme displayed or modify certain elements, such as the recording speed, you can do so before you press SETUP a second time to confirm.

If you wish to...	Then...
Select an input source other than the tuner (LINE IN 1, LINE IN 2 or LINE IN 3)	◆ Press the ◀ or ▶ buttons, until the **PR** selection flashes. ◆ Press the INPUT button one or more times to change the input source selection. Result: The programme number is replaced by: • The LINE IN 1, LINE IN 2 or LINE IN 3 source using the INPUT button for a satellite tuner or external video source ➢ The input source must be selected before changing any other value.
Record a programme every day (Monday to Sunday) at the same time	◆ Press the ◀ or ▶ buttons, until the **DAY** selection flashes. ◆ Press the ▲ or ▼ buttons, until the **DLY** (Daily) value is displayed.
Record a programme every week on the same day and at the same time	◆ Press the ◀ or ▶ buttons, until the **DAY** selection flashes. ◆ Press the ▲ or ▼ buttons, until the **W-** (Week) value is displayed, followed by the required day. Example: **W-SA** (Weekly Saturday)
Extend the recording time	◆ Press the ◀ or ▶ buttons, until the **STOP** selection flashes. ◆ Press the ▲ or ▼ buttons to increase or decrease the stop time.
Select the recording speed	◆ Press the ◀ or ▶ buttons, until the recording speed selection flashes. ◆ Press the ▲ or ▼ buttons until the correct indication is displayed: • **AUTO** (Auto Tape Speed Select) : see page 28 • **SP** (Standard Play) • **LP** (Long Play)

The Timer Programming feature allows you to preset the DVD-VCR to record a programme up to one month before that programme is to be broadcast. Up to six programmes can be preset.

☞   Before presetting a recording, check that the date and time are correct.

1   Insert the cassette and press TIMER on the remote control.
Result: The timer method is displayed.

2   Press the ENTER button to select **STANDARD** option.
Result: The **TIMER PROGRAMMING** menu is displayed.

3   Press ▶ to select the input source.

4   Select the required station by pressing the ▲, ▼ buttons.

5   Press ▶ to select the recording day.

6   Select the required day by pressing the ▲ or ▼ buttons.

7   Press ▶ to select the recording start time.

8   Select the required hour value by pressing the ▲ or ▼ buttons.

9   Press ▶ to select the minutes.

10   Select the required minute value by pressing the ▲ or ▼ buttons.

11   Press ▶ to select the recording stop time.

12   Select the required recording stop time by pressing the ▲ or ▼ buttons, following the same procedure as when selecting the recording start time.

13   Press ▶ to select the recording speed.

14   Press the ▲ or ▼ buttons to select the **SP** (Standard Play), **LP** (Long Play), **AUTO** (Auto Tape Speed Select) recording speeds.

15   When you have finished, press the RETURN button.

16   Press the STANDBY/ON button to activate the timer.
Result: Before starting recording, the DVD-VCR compares the timer duration with the remaining time on the cassette.

➢   Auto Tape Speed Select. The DVD-VCR's "Auto Tape Speed Select" function compares the duration of the timer recording to the actual recording time remaining on the tape loaded. If there is insufficient tape to complete a timer recording in AUTO mode, the DVD-VCR automatically switches to LP mode to record the whole programme.

5 On completion, press RETURN twice.

Playing a Cassette   **VCR**

This function allows you to play back any pre-recorded cassette.

1 Switch on both the television and your DVD-VCR.

2 Insert the video cassette to be played. If the safety tab on the cassette is intact, press ▶**II**.
Otherwise, the cassette is played automatically.

➢ When a cassette is loaded, the tape position is optimized automatically to reduce disturbance (Digital Auto Tracking).
When playing a cassette, if the end of the tape is reached, the cassette is rewound automatically.
NTSC tapes can be played back but cannot be recorded with this DVD-VCR.

3 **To...**   **Then press...**

Stop the playback   ■ (STOP).

Eject the cassette   ⏏ (EJECT).
Adjusting Picture Alignment Automatically   **VCR**

The Picture Alignment feature enables you to optimize the tape position automatically to obtain the best possible picture.

When noise bars or streaks appear during playback, adjust picture alignment by pressing the ATR button.

<u>Result</u>: ◆ The tracking bar appears.
◆ The picture is automatically adjusted.
◆ The tracking bar disappears when digital auto tracking has been completed.
Adjusting Picture Alignment Manually   **VCR**

The Picture Adjustment feature allows you to adjust the alignment manually to obtain the best possible picture.

When noise bars or streaks appear during playback, adjust alignment manually by pressing the PROG/TRK (▲ or ▼) buttons until the picture is clear and stable.

<u>Result</u>: ◆ The tracking bar appears.
◆ The image is adjusted.
◆ The tracking bar disappears when you release the button.
Selecting the Audio Output Mode

You can select the mode in which the sound is reproduced on the loudspeakers and AV outputs. The following options are available.

Option	Description
L	Used to listen to the sound on the left Hi-Fi channel.
R	Used to listen to the sound on the right Hi-Fi channel.
MIX	Used to listen to the mixed sound of the Hi-Fi and normal channels.
MONO	Used to listen to the sound on the normal mono channel.
L R	Used to listen to Hi-Fi stereo sound on the left and right channels.

> When playing back tapes recorded in Hi-Fi, the sound switches to Hi-Fi after five seconds of Mono.

→ **L** → **R** → **MIX**
L R ← **MONO** ←

To select the sound mode, simply press the AUDIO button on the remote control until the required option is displayed.

Playing a Cassette in Slow Motion

You can play a cassette in slow motion.

> No sound is heard when playing back a cassette in slow motion.

1 Press:
   ◆ ►**II** to start playing the cassette
   ◆ ►**II** button one more time to make STILL mode.
   ◆ ►► to start SLOW mode.
   ◆ ►► or ◄◄ button as many times as required to decrease or increase the speed respectively
   ◆ To return to the normal speed, press the ►**II** button twice.

2 When playing back in slow motion, picture interference may occur. Press the PROG/TRK (▲ or ▼) buttons to minimize this effect.

☛ When you have been using the Slow Motion function for more than about five minutes, the DVD-VCR will automatically play to protect the:
   ◆ Cassette
   ◆ Video heads
Playing a Sequence Frame by Frame

You can:
   ◆ *Stop the cassette at a given frame (image)*
   ◆ *Advance one frame at a time*

> No sound is heard when playing back frame by frame.

1 Press:
   ◆ ►**II** to start playing the cassette
   ◆ ►**II** to still the tape at a given frame
   ◆ Turn the JOG Dial to advance frame by frame

2 To return to normal playback, press ►**II**.

☛ When you have been using the Frame-by-Frame function for more than about five minutes, the DVD-VCR will automatically play to protect the cassette and video heads.

> Vertical stability: When playing back frame by frame, interference may be seen on the screen. Press the PROG/TRK buttons to minimize this effect.

Playing a Sequence at Variable Speeds

You can vary the playback speed using the Shuttle function (up to nine times the normal speed).

Example: You wish to analyze a sportsperson's technique, movement by movement.

The Shuttle function is available on the Remote control

> No sound is heard when playing a sequence at variable speeds.

1 Press:
   ◆ ►**II** during playback
   ◆ Turn the SHUTTLE dial to left to play the cassette backwards.
   ◆ Turn the SHUTTLE dial to right to play the cassette forwards.
VCR — Picture Search, Fast Forward/Rewind

Picture Search enables you to Fast Forward or Rewind and look for a particular part of a tape.

1 Press PLAY, the VCR will enter normal play mode. While in play, press and release the ▶▶ (or ◀◀) button. The VCR will search at 5 times the normal playback speed.

2 To return to normal playback mode, press the ▶❙❙ button.

3 If you press and HOLD down the ▶▶ (or ◀◀) button the VCR will search at 9 times the normal speed. Releasing the ▶▶ button will return the VCR to search at 5 times the normal speed. To return to normal playback mode, press the ▶❙❙ button.

4 Whilst in Picture Search mode, if you press the ▶▶ button again, the VCR will enter normal Fast Forward mode.

5 Likewise, whilst in Picture Search ◀◀ mode, if you press the ◀◀ button again, the VCR will enter normal Rewind mode.

6 If, when Rewinding (◀◀) or Fast Forwarding (▶▶), you press the ◀◀ (or ▶▶) button, the VCR will enter the Picture Search mode.

VCR — Searching for a Specific Sequence

Each time you record a cassette on this VCR, an "index" is automatically marked on the tape when recording starts.

The Search function allows you to fast-forward or rewind to a specific index and start playback from that point. Depending on the direction selected, the indexes are numbered as follows:

		↓		
etc.	*Prev Seq.*	*Seq. being played*	*Next Seq.*	*etc.*
2	*1*		*1*	*2*

➤ This VCR uses a standard indexing system (VISS). As a result, it will recognize any indexes marked by other VCRs using the <u>same</u> system and vice versa.

INTRO SCAN

1 To search for a specific index, press INDEX.

2 Press the ◀◀ or ▶▶ buttons depending on the direction where your desired programme is located.

3 When an Index mark is found the VCR will playback the tape for 5 seconds, after which it will continue searching for the next Index mark.

4 If you want to watch the tape from a particular Index, simply press ▶❙❙.

Index Skip Search:
This feature will enable you to fast forward/rewind to a specific point on a tape: E.g. if you have recorded 3 different programmes on a tape and you have rewound the tape to the beginning, by using this feature you can go directly to the start of programme 2 simply by pressing the INDEX button.

1 Press the INDEX to start the Index search.

2 Press the ◀◀ or ▶▶ buttons twice more. This will take you directly to the start of the desired programme is located.

3 These Index searches can be made forwards: (press ▶▶) or backwards: (press ◀◀).

4 To cancel an Index search simply press the ▶❙❙ or ■ button.

The tape counter:

◆ *Indicates the elapsed time in the play and record modes (hours, minutes and seconds)*
◆ *Is reset when a cassette is inserted in the DVD-VCR*
◆ *Allows you to find the beginning of a sequence easily*

☛ If the remaining time is to be calculated correctly, you must indicate the type of cassette being used.
1 Insert a cassette in your DVD-VCR.

2 To set the tape counter to zero at the beginning of a sequence:
◆ Press DISPLAY twice to display the counter
◆ Press CLEAR when you want to set the tape counter to zero

3 When you are ready,
◆ Start playback or Recording.
◆ Press the ■ button.
◆ To fast-forward or rewind to the sequence at which the counter was set to zero, press ◀◀ or ▶▶.

➢ Some DVD-VCR information, such as the counter, can be displayed on the television screen (unless you have deactivated the OSD mode; refer to page 28).

Press DISPLAY:

◆ Once to display the current function, programme number, recording speed, date, time and counter
◆ Twice to display the counter only
◆ Three times to display the time remaining on the cassette
◆ Four times to clear the display

0:00:00

Connecting an RCA Audio/Video Input Cable
You can connect other audio/video equipment to your DVD-VCR using audio/video cables if the appropriate outputs are available on the equipment chosen.

Examples: ◆ *You wish to copy a video cassette with the help of a second VCR (see page 41).*

◆ *You wish to play back and/or copy pictures taken with a camcorder (see page 41).*

☞ ◆ Make sure that both the television and the DVD-VCR are switched <u>off</u> before connecting the cables.

1 Connect one end of the RCA audio/video cable into the VIDEO socket on the Rear of the DVD-VCR.

2 Plug the other end of the audio/video cable into the appropriate output connector on the other system (VCR or camcorder).

3 Connect one end of the RCA audio cable into the AUDIO sockets on the Rear of the DVD-VCR.

➢ Take care to respect the colour coding of the left and right channels.

4 Plug the other end of the audio cable into the appropriate output connectors on the other system (VCR, camcorder or Hi-Fi sound system).

Using the Assemble Edit Function

*This function allows you to start a new recording at a specific position on the cassette while maintaining a very smooth scene change.*

1 Insert the cassette to be edited in your DVD-VCR.

2 Press the ▶II button to start playback.

3 When you reach the position from which you wish to start the new recording, press the ▶II button.

4 Turn the JOG Dial again as often as necessary to advance frame by frame, until the exact recording position is located.

5 While the DVD-VCR is in still mode, hold the REC button (●) down for a while to activate the Assemble Edit function.
<u>Result</u>: Record symbol flashes in the display.

6 Select the source from which you wish to record by pressing:
◆ The PROG/TRK (▲ or ▼) buttons for television channels
◆ The INPUT button for the LINE input sources

7 Press the ▶II button to start recording.

8 When you have finished recording, press ■ .
Recording from Another VCR or Camcorder

You can copy a cassette to your DVD-VCR from another video source, such as another VCR or a camcorder.

☞ It is an infringement of copyright laws to copy prerecorded cassettes or to re-record them in any form without the permission of the owners of the corresponding copyright.

1 Connect the DVD-VCR, <u>from</u> which the cassette is to be copied, to the appropriate RCA audio and video input connectors on the rear of your DVD-VCR, as indicated on page 12.

2 Insert a blank cassette in your DVD-VCR.

3 Insert the pre-recorded cassette in the other video source (VCR or camcorder).

4 Press the INPUT button to select the appropriate input on your DVD-VCR: LINE IN for the RCA input

5 Start playing back the cassette to be copied.

6 Hold REC (●) down for a while to start recording on your DVD-VCR.

7 When you have finished recording, press ■ on <u>both</u> VCR and DVD-VCR.

➢ If you wish to view the cassette being copied:
◆ Your DVD-VCR must be connected as usual to the television (see page 11 for further details)
Audio Dubbing a Pre-recorded Cassette

With the Audio Dubbing function, you erase the previously recorded sound and replace it with a new soundtrack from:

◆ *A CD, DVD*

◆ *A microphone connected to a sound system*

◆ *A cassette player*

Restriction:

Audio dubbing is applicable only to the longitudinal audio track (normal audio).

1 Connect an RCA audio cable to the appropriate output on your sound system (cassette player for example).

2 Connect the other end of the RCA audio cable to the audio input connectors (L, R) on the Rear of your DVD-VCR.

3 Insert the pre-recorded cassette on which the audio track is to be replaced, and press the ►II to start playback.

4 Search for the Audio Dubbing (ending) point using the ►►, and set the counter to 0:00:00 by pressing DISPLAY and CLEAR.

5 Search back slightly beyond the Audio Dub start point using the ◄◄ button.

6 Press the ►II button.
Press the ►II button one more time to make STILL mode.

7 Press A.DUB.
Result: Your DVD-VCR is now in the Audio dubbing Still mode.

8 On the sound system, locate the point on the cassette at which you wish to start playback.
Example: The track that you wish to record on the cassette.

9 When you are ready:
◆ Start playback on the sound system
◆ Press the REC on the remote control.
Result: The soundtrack is replaced on the pre-recorded cassette.

10 The audio dubbing will finish when the counter reaches 0:00:00.

➤ The new sound will be recorded on the normal sound track of the tape, and the original sound will remain on the Hi-Fi sound track. To hear the new sound and original sound mixed together, press the Audio button on the remote control until the MIX option is displayed (see page 36).

Using the TV Buttons on the Remote Control

Your DVD-VCR remote control will work with Samsung televisions and compatible brands.

To determine whether your television is compatible, follow the instructions below.

1 Switch your television on.

2 Point the remote control towards the television.

3 Hold down the TV button and enter the two-figure code corresponding to the brand of your television, by pressing the appropriate numeric buttons.

Brand	Codes	Brand	Codes
SAMSUNG	01 to 06	PHILIPS	02, 20, 22
AKAI	09, 23	SABA	13, 14, 22 to 24
GRUNDIG	09, 17, 21	SONY	15, 16
LOEWE	02	THOMSON	13, 14, 24
PANASONIC	08, 23 to 27	TOSHIBA	07, 16 to 19, 21

Result: If your television is compatible with the remote control, it will switch off. It is now programmed to operate with the remote control.

➤ If several codes are indicated for your television brand, try each one in turn until you find one that works.

☞ When you change the batteries in the remote control, you must reprogramme the code, following the same procedure.

You can then control the television using the following buttons.

Button	Function
TV STANDBY/ON ①	Used to switch the television on and off.
TV or VCR ②	Used to switch between the TV and VCR modes.
TV INPUT ③	Used to select an external source.
TV VOL + or − ④	Used to adjust the volume of the television.
PROG/TRK ⑤ (▲ or ▼)	Used to select the required programme.
MUTE ⑥	Used to mute the volume of the television.

➤ The various functions will not necessarily work on all televisions. If you encounter problems, operate the television directly.
SQPB (Super VHS Quasi Playback)

This function is for playback of Super VHS format tapes only, not for recording.

1 Inset the SVHS format tape that you want to see.

2 Press PLAY (▶II) to start playing the cassette.

3 Press SVHS button to start SQPB.

☛ If the SQPB is on during normal playback, the video output is distorted.

Playing a Disc

Before Playback :

◆ *Turn on a TV and press the TV/VIDEO button to select video mode.*

1 Press the OPEN/CLOSE button.

2 Place a disc gently into the tray with the disc's label facing up.

3 Press the ▶II (PLAY/STILL) button or OPEN/CLOSE button to close the disc tray.

☛ **RESUME function :**
When you stop disc play, the player remembers where you stopped, so when you press PLAY again, it will pick up where you left off (unless the disc is removed, the STOP button is pressed twice or the player is unplugged.).

➤ ◆ If the player is left for 5 minutes in still mode, it will stop.
   ◆ This icon indicates an invalid button press.

➤ **Before using the DVD operation, press the DVD button on the remote control to watch and select DVD.**

1 Stopping Playback. Press the STOP button during playback.

2 Removing Disc. Press the OPEN/CLOSE button.

3 Stilling Playback.
Press the ▶II (PLAY/STILL) button on the remote during playback.
   ◆ Screen stops, no sound.
   ◆ To resume again, press ▶II (PLAY/STILL) button once again.

4 Step Motion Playback (Except CD)
Turn the JOG dial the remote during stilling playback.
   ◆ Each time the button is pressed, a new frame will appear.
   ◆ No sound is heard during STEP mode.
   ◆ Press ▶II (PLAY/STILL) to resume normal playback.
      (You can only perform step motion playback in the forward direction.)

5 Slow Motion Playback (Except CD)
Press the ▶▶ button on the remote during STILL or STEP mode.
   ◆ By pressing the ▶▶ button, you can select slow motion playback for 1/2, 1/4 or 1/8 of normal speed.
   ◆ No sound is heard during slow mode.
   ◆ Press ▶II (PLAY/STILL) to resume normal playback.
   ◆ When playing, the reverse slow motion playback will not work.
During playback, you can search quickly through a chapter or track or use the skip function to jump to the next selection.
1 During playback, press the ►► or ◄◄ button on the remote.
   ◆ Press the ►► or ◄◄ button on the remote and press again to search at a faster speed(2X/4X/8X/16X/32X/128X/normal speed, in order) on the DVD.
   ◆ Press the ►► or ◄◄ button on the remote and press again to search at a faster speed(4X/8X/normal speed in order) on VCD and CD.
   ◆ To return to normal speed playback, press the ►II (PLAY/STILL) button.

2 During playback, press the ►►I (NEXT SKIP) or I◄◄ (BACK SKIP) button.
   ◆ When playing a DVD, if you press the ►►I (NEXT SKIP) button, it moves to next chapter. If you press the I◄◄ (BACK SKIP) button, it moves to the beginning of the chapter. One more press makes it move to the beginning of the previous chapter.
   ◆ When playing a VCD 2.0 in MENU OFF mode, a VCD 1.1 or a CD, if you press the ►►I (NEXT SKIP) button, it moves to next track. If you press the I◄◄ (BACK SKIP) button, it moves to the the beginning of the track. One more press makes it move to the beginning of the previous track.
   ◆ If a track exceeds 15 minutes when playing a VCD and you press the ►►I (NEXT SKIP) button, it moves forward 5 minutes. If you press the BACK SKIP button, it moves backward 5 minutes.

➤ ◆ When in search mode (8X/16X/32X/128X) on a DVD or high-speed playback on a VCD, no sound will be heard.
   ◆ Depending on the disc, audio may not be heard when a disc is in 2X playback mode.

The Setup menu lets you customize your DVD player by allowing you to select various language preferences, set up a parental level, even adjust the player to the type of television screen you have.

1 With the unit in Stop mode, press the SETUP button on the remote.
   Result: The MAIN MENU is displayed.

2 Press the corresponding ▲, ▼ or ◄, ► buttons to select the DVD option.

3 Press the ENTER button to select this option.
   Result: The DVD SETUP menu is displayed.

   • **Disc Menu :** Setup of the Menu Language
      Use the Menu preference menu to select the language you want a DVD's disc menu to be displayed in.

   • **Audio :** Setup of the Audio Language
      Use the Audio preference menu to select the soundtrack language.

   • **Subtitle :** Setup of the Subtitle Language
      Use the Subtitle preference menu to select the language the disc's subtitles are to be displayed in.

   • **Parental :** Setup of the Parental Level
      Allows users to set the level necessary to prevent children from viewing unsuitable movies such as those with violence, adult subject matter, etc.

   • **Audio Options :** Setup of the Audio Options

   • **Display Options :** Setup of the Display Options use to select which type of screen you want to watch and several display options.

4 Use the ▲ or ▼ buttons on the remote to access the different features.

5 Press the ENTER button to access the sub features.
   • To make the setup screen disappear after setting up, press the RETURN button again.

➤ *Depending on the disc, some DVD SETUP selections may not work.*

• **TV Aspect**
Depending on the type of television you have, you may want to adjust the screen setting (aspect ratio).

4:3 Letter Box : Select when you want to see the total 16:9 ratio screen DVD supplies, even though you have a TV with a 4:3 ratio screen. Black bars will appear at the top and bottom of the screen.

4:3 Pan-Scan : Select this for conventional size TVs when you want to see the central portion of the 16:9 screen. (Extreme left and right side of movie picture will be cut off.)

16:9 Wide : You can view the full 16:9 picture on your widescreen TV.

• **Black Level**
Adjusts the brightness of the screen.

• **NTSC Disc Output**
Depending on a disc, you can play a NTSC DVD disc by NTSC Disc Output mode.

• **DVD Out**
Component : Sends COMPONENT signal (Y, Pb, Pr) to the component video out JACK.
S-Video : Sends S-VIDEO signal to the S-VIDEO OUT JACK.
**Video :** Sends Composite signal to the Line out JACK.

➢   • *How to make the DVD SETUP disappear or return to menu screen during set up: Press the RETURN button.*

The S-Video or Component Video connection is only for the DVD player. The tuner and VCR will still be viewed through the RF or line inputs.
You must follow the "DVD Out" instructions on page 52 to activate your alternative (S-Video, Component) video selection.
You can choose EITHER S-Video OR Component, but NOT both.
If your television is equipped with S-Video or Component Video inputs, you can enjoy superior video quality when watching DVDs with your DVD-VCR.

1   Connect S-VIDEO OUT to TV

Connect an S-Video cable from the S-VIDEO OUT on the back panel of the DVD-VCR to the S-Video Input on your television.

2   Connect Component Video Out to TV

Connect a component video cable from the COMPONENT VIDEO OUT (Y, Pb, Pr) on the back panel of the DVD-VCR to the Component Video Input on your television.

To S-Video Input on Your TV

To Component Video Input on Your TV
During DVD/CD playback you can select from the following special playback options. To resume normal playback, press the ►ll (Play/Still) button.

1   Still
Press the ►ll (Play/Still) button on the remote control during playback.

• The picture will still and the audio will mute.
• To resume playback, press the ►ll (Play/Still) button.
• If the player is left in Still mode for 5 minutes, it will stop automatically.

2   Frame Advance (Step)
While in Still mode, turn the JOG dial on the remote control to advance one frame at a time.

• Audio is muted during Frame Advance mode.
• Press ►ll (Play/Still) to resume normal playback.
NOTE: Frame Advance operates only in the forward direction.

3   Skip Forward/Back
While a CD or DVD disc is in Play mode, press the Skip Forward/Back (►►l/ l◄◄) buttons on the remote control or front panel to jump forward and backward through disc chapters/tracks.

• Skip Forward will jump to the next chapter/track.
• Skip Back will jump to the beginning of the current chapter/track.
• Press Skip Back again to jump to the beginning of the previous chapter/track.

Search Forward/Back
While a disc is in Play mode, press and hold the Forward/Back (►►/ ◄◄) buttons on the remote control or front panel to visually search forward/backward at 2X - 4X - 8X - 16X - 32X - 128X speed. Press ►ll (Play/Still) button to resume normal speed.

• During CD Play back, ►►l/ l◄◄ buttons on the remote control don't operate but the shuttle allows you to select playback speed (2X, 4X and 8X).

4   Slow Motion
During playback, press the ►ll (Play/Still) button to Still the image. Then use the Search Forward (►►) to play in slow motion at variable speeds.

• Each press increases the slow motion speed playback to 1/8, 1/4 or 1/2 normal speed.
• Audio is muted during slow motion playback.
• Front Panel Slow Motion Buttons - Press and hold the Forward buttons on the front panel to activate slow motion playback. Press the ►ll (Play/Still) button to resume normal playback.
• Slow motion operates only in the forward direction.

5   Stop/Resume
• Press the Stop button once to stop playback. To resume the DVD/CD from the point where the disc stopped, press the ►ll (Play/Still) button.
• Press the ■ (Stop) button twice to completely stop playback. The next time you press ►ll (Play/Still), the disc will start over from the beginning.

When Playing a DVD

1   During play, press the DISPLAY button on the remote.

- Current title, chapter number, elapsed time, audio and subtitle will be displayed.

• Use the NUMBER buttons to enter a different title, then press the ENTER button.

• Use the ◄, ► or NUMBER buttons to enter a chapter number, then press the ENTER button.

• To enter the time from which you want to start, use the ▲ or ▼ buttons to select, then use the NUMBER buttons to enter the time. Then press the ENTER button.

• To make the screen disappear, press the DISPLAY button again.

When Playing a CD/VCD

1   During play, press the DISPLAY button on the remote.

- Current track NUMBER and elapsed time will be displayed.

• Use the ▲ or ▼ buttons to select a track. Use the ◄, ► buttons or NUMBER buttons to enter a different track number, then press the ENTER button.

• To enter the time from which you want to start, use the ▲ or ▼ buttons to select, then use the NUMBER buttons to enter the time. Press the ENTER button.

- To make the screen disappear, press the DISPLAY button again.

➤ *What is a Chapter?*
Each Title on a DVD is usually divided into chapters (similar to tracks on an audio CD).

What is a Title?
A DVD may contain several different titles. For example, if a disc contains four different movies, each might be considered a title.

DVD

VCD
CD
Repeat the current track, chapter, title, a chosen section (A-B), or all of the disc.

1 Press the REPEAT button on the remote. Repeat screen appears.

2 Select Chapter, Title or A-B using the ◀ or ▶ buttons.

- Repeat A-B

• Press the REPEAT button. Select A-B on screen with the ◀ or ▶ buttons on the remote.

• Press ENTER at the point where you want the repeat play to start (A). The B is automatically highlighted.

• Press ENTER at the point where you want the repeat play to stop (B).

3 Press ENTER.

4 To return to normal play, press REPEAT again, then press the ◀ or ▶ buttons to select Off and press ENTER.

➢ • *DVD repeats play by chapter or title, VCD repeat play by disc or track.*
• *Depending on the disc, the Repeat function may not work.*
• *If the title or track is completed before marking the end (B), the end of title or track becomes B automatically.*
• *When in VCD 2.0 mode (MENU ON mode), this function does not work.*

Programmed Playback (CD)

Programmed Playback lets you set a custom order for playback of tracks on a CD.

1   Open Playback Mode Menu
In play mode, press the MODE button.

2   Select "PROGRAM"
Using the left/right buttons, move the selection bar to "PROGRAM" then press ENTER to select.

3   Select Track
Press the up/down and left/right buttons to select the first track in your revised playback list, then press the ENTER button.

4   Program Playback Order
Use the up/down and left/right buttons to select the remaining tracks, pressing Enter after each.

• Press the CLEAR button to change selections.

5   Play Revised Order
Press the ▶II (Play/Pause) button. The disc will play back in the custom programmed order.
• While in playback mode, press the CLEAR button on the remote control to cancel Programmed Play.

3   Press the ENTER button.
- During DVD play : press ENTER to zoom in 2X/4X/2X/Normal in order.
- During VCD play, press ENTER to zoom in 2X/normal in order.

MP3 is a popular music format which allows you to compress music files up to 1/12 of their original size while retaining near CD quality sound. Your DVD-VCR can playback MP3 files burned onto a CD-R disc.
1   **Insert Disc**
Insert a CD-R with MP3 files into the DVD deck.
• The MP3 main menu will appear after a few seconds and the first song on the disc will begin playing.

2   **Select Folder**
Press the up/down buttons to select the folder on the CD-R which contains the MP3 files you want to hear, then press Enter to select.

• If there are more than 8 folders on the disc, press RETURN to view additional folders.
• If there are no folders on the CD-R, skip to Step 3.

3   **Select MP3 File**
Press the up/down buttons to select the desired MP3 file.

• If there are more than 8 MP3 files in the selected folder, press the left/right buttons to view additional MP3 files.
• File names are truncated to eight characters: the first six characters of the song, plus an asterisk (*), then a number.
• Press the Return button to back up and select another folder.

4   **Play MP3 File**
Press the ENTER button on the remote control to play the selected song.

• While the song is playing, you can use the up/down buttons to browse through other folders.

5   **Stop MP3 Selection**
Press the ■ (Stop) button on the remote control to stop playback.

---

* To ensure proper playback of discs burned from MP3 files, make sure the files have been recorded at a bit rate of at least 128 kbps.

* If there are any gaps (blank data) on multi-session discs, you may experience playback problems.

* On discs that are recorded with a Variable Bit Rate(VBR), e.g. from 32 to 320 kbps, the sound may cut in and out.

* When the REPEAT button is pressed during playback, the current song will be played back repeatedly.

MP3 Play (CD-R MP3 disc requirements)

*When playing CD-R MP3 discs, please follow the recommendations below:*

• **Your MP3 files should be ISO 9660 or JOLIET format.**
ISO 9660 format and Joliet MP3 files are compatible with Microsoft's DOS and Windows, and with Apple's Mac. These two formats are the most widely used.

• **When naming your MP3 files do not exceed 8 characters, and place ".mp3" as the file extension.** General name format of: Title.mp3. When composing your title, make sure that you use 8 characters or less, have no spaces in the name, and avoid the use of special characters including: (.,/,\,=,+).

• **Use a decompression transfer rate of at least 128 Kbps when recording MP3 files.**
Sound quality with MP3 files basically depends on the rate of compression/decompression you choose. Getting audio CD quality sound requires an analog/digital sampling rate (conversion to MP3 format) of at least 128 Kbps and up to 160 Kbps. However, choosing higher rates, like 192 Kbps or more, only rarely give better sound quality. Conversely, files with sampling rates below 128 Kbps will not be played properly.

• **Do not try recording copyright protected MP3 files.**
Certain "securized" files are encrypted and code protected to prevent illegal copying. These files are of the following types: Windows MediaTM (registered trade mark of Microsoft Inc) and SDMITM (registered trade mark of The SDMI Foundation). You cannot copy such files.

• **Your DVD player only accepts one level of file directory. Consequently you must choose:**
- either to save all your MP3 recording files at the root of the disc;
- and/or create folders in the directory for each artist or music type (e.g.classical, rock, jazz, etc)

• **Important:** The above recommendations cannot be taken as a guarantee that the DVD player will play MP3 recordings, or as an assurance of sound quality. You should note that certain technologies and methods for MP3 file recording on CD-Rs prevent optimal playback of these files on your DVD player (degraded sound quality and in some cases, inability of the player to read the files).

Connecting the FM and AM antennas

1   FM antenna connections
• Connect the FM antenna to the FM 75Ω COAXIAL terminal.
• Unwind the antenna wire and then fasten it to a wall in an area where reception is best.

- If reception is poor, connect the outdoor antenna.
Remove the existing FM antenna before connecting the 75Ω coaxial cable.

2   AM antenna connections
• Connect the AM loop antenna to the AM and 吋 terminals on the back of the unit.
• Rotate the loop antenna until you have the best reception.
Cooling fan
The cooling fan in the rear center of the unit ensures reliable operation and protects it from overheating.
It will operate automatically as needed to circulate cool air when the temperature rises past a set threshold.
For safety, please take note of the following points:
• Make sure that the unit is well-ventilated. Poor ventilation may cause damage by overheating.
• Make sure that the cooling fan or ventilation holes are not obstructed. (If the ventilation holes are blocked by newspaper, clothes, etc., heat builds up inside the main unit, resulting in a risk of fire.)
• When the power is supplied to the main unit, the cooling fan will be activated.

Connecting the Speakers
*Connect the front, center, and surround speakers and the
subwoofer to the speaker terminals on the back of the main unit.*

1   Connect the speakers to the speaker output terminals on the back
of the main unit, matching the colors.

Caution
Do not set the Speakers (except center speaker) near the TV or Monitor
because the Speakers (except center speaker) are not magnetic shielded.

With the DVD in stop mode, press the SETUP button.

2   Select "DVD"
Using the up/down and left/right buttons, move the selection cursor to "DVD Setup", then press ENTER to select.
3   Select "Audio Options"
Move the selection bar to "Audio Options", then press ENTER to options.

Setting the delay time

You can customize the sound to best fit the specific acoustics of the room by adding a delay to the sound from the center and surround speakers.
The delay time is initially set to 0 ms.

◆ *You can enjoy the best sound during 5.1 channel surround playback if the distance between you and each speaker is the same. You can adjust the delay time for the center and surround speakers according to the placement of the speakers in the room.*

◆ *For the center speaker*
If the distance of Dc is equal to or longer than the distance of Df, set the delay time to 0 ms.
Otherwise, change the value according to the table.
(A)=Df-Dc

◆ *For the surround speakers*
If the distance of Df is equal to the distance of Ds, set the delay time to
0 ms.
Otherwise, change the value according to the table shown on the right.
(B)=Df-Ds

Ideal speaker placement

1   Center speaker
Place the speaker directly over or under the TV. But, ideally, the center speaker should be positioned with the top surface flush with the front speakers..

2   Front speakers
Place the front speakers so that their tweeters (high-range) are aligned at about the same height as ear level and at a horizontal angle of 45° with respect to the prime listening position.

3   Surround speakers
Place these speakers behind your listening position, facing slightly inwards, about 2 to 3 feet (60 to 90 cm) above ear level.
If there isn't enough space behind the listening position (i.e., close to the wall), place the surround speakers at either side with their front surfaces facing each other.

4   Subwoofer
The position or orientation of the subwoofer is not as critical. Place it anywhere you want.

Speaker setup

To adjust the speaker balance

1   Press the SPEAKER button.

• Each time you press the button, the speaker is selected in the order of FL→ C → FR → SR → SL → SW → VOL.
You will see this on the unit's display.

2   Use the + and - buttons to adjust the volume on the desired speaker.

• The volume can be adjusted with in the range of -12 to 0 to +12.

To test the speakers

1   Press the TEST button.

• Each time you press the button, the test tone will be heard in the order of FL (Front speaker/L) → C (Center speaker) → FR (Front speaker/R) →SR (Surround speaker/R) → SL (Surround speaker/L) → SW (Subwoofer).

2   To stop the test tone, press the TEST button again.

➤ You can adjust the speaker balance for the selected channel using the Volume Control buttons during the test tone operation.
Dolby Pro Logic II decoder

Dolby Pro Logic II is a new format for playing multichannel audio signals that offers improvement over conventional Dolby Pro Logic. It can be used to decode not only sources recorded in Dolby Surround, but also regular stereo sources into five channels (front left/right, center and surround left/right). In addition, various parameters can be set according to the type of source and contents, so you can adjust the sound field with greater precision.

Select the source you want to use. (CD, Video, FM/AM, Input (LINE1, LINE2, LINE3, TV CH))

1 Press the SOUND MODE button.
  • Press the SOUND MODE button repeatedly to select Dolby Pro Logic II.

2 Press the SOUND EFFECT button.
  • Each time you press the button, the sound effect changes as follows.

```
PL II  ┄┄►  MATRIX
                ▼
            MOVIE
                ▼
            MUSIC
```

3 Select the desired mode ("MATRIX", "MOVIE", or "MUSIC").
  • Matrix: Use when playing sources recorded in monaural.
  • Movie: Use this when viewing movies.
 • Music: Use this mainly for music listening.

➤ ◆ Dolby Pro Logic II may not be selected depending on the disc used. (DTS DVD, Dolby Digital 5.1, VCD, MP3)

  ◆ When playing a DVD recorded in 2-channel Dolby Digital, it will automatically be output in Dolby Pro Logic II.

  ◆ Dolby Pro Logic II operates only when CD, VIDEO, FM/AM, or INPUT (LINE1, LINE2, LINE3 or TV Broadcast) is selected. Mode, Sound Effect cannot be selected while the DVD signal is being input.

SOUND mode/effect function

*This feature simulates the sound of different acoustic spaces.*

1 Press the SOUND MODE button.

  • Each time you press the button, the sound mode changes as follows.

  • The SOUND mode adds a coustic surround effect during playback of stereo analog or linear PCM digital signals.

```
PL II
  ▼
NATURAL
  ▼
JAZZ
  ▼
CONCERT
  ▼
STADIUM
```
2 Press the SOUND EFFECT button.

  • Each time you press the button, the selection alternates between EFFECT 1 and EFFECT 2.
  • The higher the number, the greater the effect.
  • If you press the button while in the STEREO mode, the selection alternates between STEREO and 4 STEREO.
 • When in 4 STEREO mode, you'll hear equal output from the front and rear speakers.

➤ ◆ The Sound mode and effects do not Work With Dolby Digital, DTS, VCD, MP3, LPCM disc, and Optical Input(OPTICAL) sources.

  ◆ Dolby Digital, DTS, Optical Input (Dolby Digital) : 5.1-Channel speaker output

  ◆ VCD, MP3, LPCM, Optical Input (PCM) : Outputs to the front left, right, and subwoofer speakers only.

  ◆ During DTS or MPEG playback, audio is output only to the speakers. Audio is not output using other connections.

Listening to radio broadcasts
You can automatically or manually tune in to FM and AM stations to listen to radio broadcasts.

1 Press the FM/AM button.

- Each time you press the button, the band alternates between FM and AM.

2 Tune in to a station.

- Automatic tuning : Hold down ◄◄ / ►►I to begin the automatic tuning.
- Manual tuning : Press I◄◄ to tune in to a lower frequency, or press ►►I to tune in to a higher frequency.

➤ *The FM/AM function cannot be selected while operating the DVD player or VCR.*

Presetting stations
Example: Storing an FM station of 89.1 MHz into the preset number 02 of the FM1 band

1 Press the FM/AM button to select the FM band.

- Each time you press the button, the band alternates between FM and AM.

2 Select a channel to choose the memory address to which you want to store the station.

3 Use the ◄◄ and ►► buttons to tune in to 89.1 FM.

4 Press the ■ button or the ENTER button on the remote control.

- 89.1 FM is stored in FM1.

5. Select a channel to select a preset station number.

6. Press the ■ STOP button or ENTER button again to store FM station 89.1 to FM 1.

7. To store other stations Repeat steps 1 to 6 above.

- You can use the CHANNEL button to store up to 20 FM stations and 10 AM stations.

➤ • ∞ will be indicated when tuned to an FM station.
- To store other channels, repeat the steps 2 to 4 above.

Problems and Solutions (VCR)

Before contacting the Samsung after-sales service, perform the following simple checks.

Problem	Explanation/Solution
No power	◆ Check that the power plug is connected to a wall outlet. ◆ Have you pressed the STANDBY/ON button?
You cannot insert a video cassette	◆ A video cassette can only be inserted with the window side up and the safety tab facing you.
The television programme was not recorded	◆ Check the DVD-VCR aerial connections. ◆ Is the DVD-VCR tuner properly set? ◆ Check if the safety tab is intact on the cassette.
Timer recording was unsuccessful	◆ Was the STANDBY/ON button pressed to activate the timer? ◆ Re-check the recording start/stop time settings. ◆ If there was a power failure or interruption during timer recording, the recording will have been cancelled.
No playback picture or the picture is distorted	◆ Check to see if you are using a prerecorded tape.
You cannot see normal broadcasts	◆ Check the TUNER/EXTERNAL setting. It should be on TUNER. ◆ Check the TV/VCR aerial connections.
Noise bars or streaks on playback	◆ Press the PROG/TRK (▲ or ▼) buttons to minimize this effect.
When the ►❙❙ button is pressed during playback, the still picture has severe "noise bars" streaks	◆ A still picture may have "noise bars", depending on the condition of the tape. Press the PROG/TRK (▲ or ▼) buttons during SLOW motion to minimize this effect.
Video Head Cleaning	◆ If poor pictures appear on a variety of cassettes, the video heads may need cleaning. This is not a common problem and unless it appears, the heads should not be cleaned. When cleaning the video heads, read all instructions provided with the head cleaning cassette. Incorrect head cleaning can permanently damage the video heads.
If when tuning in your TV to the DVD-VCR your TV does not find the screen or the screen when found suffers from interference, it may be due to the DVD-VCR output channel clashing with the normal TV transmissions in your area. To prevent this you will need to change the DVD-VCR output channel in the following way	1. Remove the aerial input plug from the socket marked (aerial symbol) on the rear of the DVD-VCR. 2. Carry out the instructions "Tuning Your Television for the DVD-VCR" (see page 14). 3. Carry out the instructions "Setting the DVD-VCR output Channel" (see page 23), move the channel number several channels down from the original setting. (example: from 38 to 40). 4. Replace the aerial plug into the socket marked (aerial symbol) on the rear of the DVD-VCR. 5. Re-tune your TV to the DVD-VCR again by following instructions "Tuning Your Television for the DVD-VCR" (page 14). 6. If the problem still exists repeat steps 1 to 5 moving several more channels away from the original setting.

If you are unable to solve the problem after reading the above instructions, note:

◆ *The model and serial number on the rear of your DVD-VCR*

◆ *The warranty information*

◆ *A clear description of the problem*

Then contact your nearest SAMSUNG after-sales service.

Troubleshooting Guide (DVD)

Before requesting service (troubleshooting)

Problem	Action	Page
Disc does not play.	◆ Ensure that the disc is installed with the label side facing up. ◆ Check the region number of the DVD. ◆ This player cannot play CD-ROMs, DVD-ROMs, etc. Insert a DVD, a VIDEO-CD or a CD.	P6
The ⊘ icon appears on screen.	◆ The features or action cannot be completed at this time because: 1. The DVD's software restricts it. 2. The DVD's software doesn't support the feature (e.g., angles). 3. The feature is not available at the moment. 4. You've requested a title or chapter number or search time that is out of range.	
Playback mode differs from the Setup Menu selection.	◆ Some of the functions selected in the DVD SETUP may not work properly if the disc is not encoded with the corresponding function.	P47-52
The screen ratio cannot be changed.	◆ The Screen Ratio is fixed on your DVDs.	P52
Forgot password	◆ Press power on from a cold start with no disc in the unit. Press the ▶▶ and ◀◀ buttons simultaneously on the front panel for five seconds. Switch off and on the DVD-VCR by pressing STANDBY/ON button. The Parental Mode is now unlocked as indicated on the display. You can now set your rating level and change your password to a new number.	
If you experience other problems.	◆ Go to the contents and find the section of the instruction book that contains the explanations regarding the current problem, and follow the procedure once again. ◆ If the problem still cannot be solved, please contact your nearest authorized service center.
